

NAYANATURE FOREST SCHOOL FOR TEACHERS

Single session: Super bird

Learning objectives

- To become aware of the variety and interest of our natural world, especially the variety of birds
- To become aware that there are other sensory perceptions than the human one (anthropocentrism)
- To evolve as a team
- To develop imagination and creativity
- To understand the importance of correct information when it comes to protecting the nature

1.5 hour programme on the field:
